

Cart Mounted Portable Aerosol System

To dispense sanitizers and disinfectants

Aerosol - Air - Liquid . . . Choose your delivery method

The 3 Gallon Portable Aerosol System puts you in control of output type. Select aerosol, liquid only or air only. The compressor driven system delivers aerosol disinfectants to all public areas and vehicles.

- School Rooms • Buses • Trains • Ambulances
- Hospitals • Cruise Ships • Nursing Homes
- Bathrooms and Toilets • Locker Rooms

This unit is adjustable to give you a disinfectant spray from a heavy mist to a light fog. By treating the area with a fog type spray you can avoid any additional "wiping down" of the infected area. Easy to use and saves on the cost of Aerosol Cans.

- » 3 gallon stainless tank for extra capacity
- » Disinfects and sanitizes more area in less time
- » Easy to use and clean
- » 15 ft. recoiling hose
- » 18" stainless steel extension and tip
- » Application flexibility
- » Self regulating compressor available in 110 and 220 (please specify)
